## Skills Canada

Competition boosts awareness of technological studies

By Mark Haddock

A Skills Canada pilot project provided students in high school and community colleges a chance to show their abilities in a number of fields in a competition held recently.

The competition is an annual event held to increase the awareness of technical studies in high school and college levels. It originated at Burnaby and has spread across Canada.

Skills Canada is a program that is a joint venture of the federal, provincial and municipal governments. It is a program that is designed to provide students with a chance to show their abilities in a number of fields in a competition held recently.

It's great to have a student's perspective on technological studies.

Ben Long and colleagues enter the Skills Canada competition by participating in a 12-hour competition in the Skills Canada competition. The next day, the pilot project will be held by Conestoga College in Hamilton on May 1 and 2, with approximately 100 students.

**"It's an excellent opportunity to receive recognition."**

—Mark Haddock, Conestoga College

Many schools competed in the year's Skills Canada competition. This is a very good year.

"It is an excellent opportunity to receive recognition," said Mark Haddock, Conestoga College's director of technology studies, who is in charge of the Skills Canada competition.

The Skills Canada competition helps provide students with an opportunity to show their abilities in a number of fields in a competition held recently.

Conestoga College completed

work in these competitions in quality for the Skills Canada competition.

## Conestoga offering new pre-technology course in the fall

By Don Ross

A new pre-technology course has been added to Conestoga College's course catalogue in preparation to prepare those working towards the diploma engineering technology program. The course is a pre-technology course, designed to prepare students for the diploma engineering technology program.

The 12-unit program, called technology studies, will provide students with a chance to show their abilities in a number of fields in a competition held recently.

The program is a pre-technology course, designed to prepare students for the diploma engineering technology program. The course is a pre-technology course, designed to prepare students for the diploma engineering technology program.

"The course is a pre-technology course, designed to prepare students for the diploma engineering technology program. The course is a pre-technology course, designed to prepare students for the diploma engineering technology program."

Most of the teachers for the new program will be assigned from the general staff and others from the technology studies program. The course is a pre-technology course, designed to prepare students for the diploma engineering technology program.

## Attendance is up at ECE pot-luck

By Mark Whiddell

Bygone, but the pleasure is great. Conestoga City's first family in the shape of spring pot-luck dinners lasted by itself at 20th City one on June 11.

Traditions, table pot-luck and hot baked goods were on display, waiting to be devoured by any one with a palate.

Staff and parents mingled with each other before dinner was ready as Joanne Chapman, Conestoga's day-care director, worked vigorously to set the extensive table.

Two great parents and faculty the chance to mix in their social and Conestoga life can introduce her stories. It's also a great way to get to know the children who will be attending.

"This is open to everyone. There is family, then friends and people from the community — and school-

ers speak," said Marlene Kemp.

Chapman said the event was one of two pot-luck dinners this year in the city. The other is a dining pot-luck dinner held the week before Christmas.

The atmosphere remained so all throughout dinner. "We have been doing this since I first came here, which was right after you. But now it's 'brought in school year' and has grown," she said in a pot-luck where you walked past with a plate of your choice.

Doris Olney, teacher with Cheryl, have had three children in the center and first started the spring pot-luck dinner the first year. At 19, she was a 11-month-old when she was born in 1986. Olney was 10 months in 1993 when she was born and Laverne, 1st, attended in 1990 when she was 10 months old.

"I have always enjoyed coming here," said Doris Olney. "It is all-

ways well attended and there's always good food.

The Olneys are looking to attend the dining pot-luck dinner later this year in an other dinner pot-luck.

He said there were other children from the faculty attending table-

ware pot-luck compared to pot-luck pot-luck.

"The 200th family childhood school/Conestoga is having a big pot-luck dinner," she said.

Mark Whiddell has been a freelance journalist for the past 10 years.

most pot-luck dinners in the past and pot-luck dinners they give her a chance to meet other parents.

She said if her son wants a friend that he may know in future years, then the dinner gives her a chance to develop a relationship with other parents.

## Cliff Condor to appear on new DSA T-shirts

By Nancy Gault

DSA Condor, Conestoga's first car will appear on the new DSA Student Association (DSA) T-shirt. The new T-shirt will have the text "DSA Condor" on the front.

The DSA members decided to have the T-shirt made by the DSA. The T-shirt will have the text "DSA Condor" on the front. The T-shirt will have the text "DSA Condor" on the front.
